EXPERIENCE

Image Conscious Studios — Designer

Boston, MA | September 2019 – Present

- Designs identity systems, branded assets, and websites, engaging clients with professionalism and confidence.
- Involved in every step of designing accessible, responsive UI for desktop and mobile, from wireframes to QA testing.
- Balances an of average 6 clients at a time, simultaneously delivering on long-term projects and quick-turnaround requests.
- Collaborates with UX strategists, art directors, creative directors, and web developers on all projects.
- Conducts competitive audits and analyses, and leads brand workshops to establish the foundation for new projects.
- Has built strong collaborative relationships with multi-year retainer clients, such as climatetech incubator Greentown Labs, designing their logo, brand, and website, along with reports, booklets, posters, presentations, and sub-brands.
- Provided art direction and storyboarding for Sapient Bioanalytics's animated explainer video, as well as brand guidelines, motion-focused UI design, and slide decks.
- Creates scientific illustrations for clients including Ampersand Biomedicines, Selecta Biosciences, and Elevation Oncology.

Untitled Worldwide, LLC — Graphic Design Intern

New York City, NY | June 2019 – August 2019

- Received firsthand experience working with high-profile clients at a marketing agency.
- Created pitch decks and strategy presentations for IBM and Spotify.
- Worked on competitor research and branding solutions for clients such as LG, Artistry, and PwC.

Massachusetts College of Art and Design — Exhibition Design Intern

Boston, MA | March 2019 – April 2019

- For an annual school writing exhibition, created 23 large-scale posters for print production by typesetting student essays.
- Designed a unique poster to promote the opening, which was displayed around campus and online.

Trader Joe's — Store Artist

Needham & Brookline, MA | March 2018 – May 2019

- Created in-store signage, using hand lettering and illustration on large endcaps, promotional signage, and product labels.
- Expected to produce signs to drive customer enthusiasm and knowledge towards specific products, increase sales, and assist in store communication and wayfinding.

EDUCATION

Massachusetts College of Art and Design — BFA in Graphic Design

Boston, MA | 2014 – 2019
